Reselling of Services

All accounts other than such Reseller accounts that RapidHost may offer from time to time are to be used by the primary owner only, and do not allow the holders to resell, store or give away web-hosting services of their website to other parties.

Web hosting services are defined as allowing a separate, third party to host content on the owner's web site. Exceptions to this include ad banners, classified ads, and personal ads.

Customers may however resell all of our services with a Reseller package.

RapidHost reserves the right to suspend access to any control panel based facilities of a Reseller account if a customer's use is deemed to be affecting the platform. Access will be reinstated pending investigation and appropriate fixes to any conflicts.

Bandwidth Use Policy

Bandwidth usage: RapidHost offers a burstable bandwidth use policy by maintaining large ratios of bandwidth per customer. In rare cases, RapidHost may find a customer to be using server resources to such an extent that he or she may jeopardise server performance and resources for other customers. In such instances, RapidHost reserves the right to impose the High Resource User Policy for the consideration of all customers.

Database Usage

If you exceed the limits on our database products (MS SQL, FileMaker and MySQL) then we will automatically charge you for the additional space you use at our current prices. For example if you have a 150MB database and 200MB is in use at the time of billing then we will charge for the extra 50MB in that month.

High Resource User Policy

Resources are defined as bandwidth, processor utilisation or disk space.

RapidHost may implement the following policy to its sole discretion:

When a website is found to be monopolising the resources available RapidHost reserves the right to suspend that site immediately. This policy is only implemented in extreme circumstances and is intended to prevent the misuse of our servers. Customers may be offered an option whereby RapidHost continues hosting the website for an additional fee.

Uploads Via Scripting Languages

We may limit uploads made via scripting languages - including PHP, ASP and ASP.NET. Uploads made using PHP may be limited to 20MB per file.

Payment Policies

All accounts are set up on a prepay basis. Although RapidHost reserves the right to change prices of accounts or services at any time, all pricing is guaranteed for the period of prepayment. Payment thereafter is due every 30, 90 or 365 days, following the date the account was established. Customers will automatically be invoiced again for the next prepay period unless closure notification has already been given.

In situations where the card number on file is declined and/or an invoice remains unpaid RapidHost reserves the right to suspend other services until the outstanding debt is cleared. Any non-payment of a recurring invoice is subject to a £20 plus VAT administration charge. The customer is responsible for all money owed on the account from the time it was established to the end of the notice period following the time that the customer sends a written cancellation request.

For customers who have credit/debit card accounts you are required to have a valid credit/debit card and email address registered on your account at all times, failure to do so may result in suspension of your account.

Invoices will be sent directly to customers via email.

All payment is in UK sterling, and all prices are displayed ex VAT unless stated otherwise.

Your Personal Details

Please note that whilst your email is primarily used for billing purposes, RapidHost reserves the right to email you information about enhancements to our systems and product offerings. You can unsubscribe from marketing communications at any time.

We will not provide any of your personal information to other companies or individuals without your permission. However, we may need to provide your contact details to third parties that RapidHost may use for the purposes of delivering specific services to you (e.g. customer support).

Payment Options

In order to streamline our accounting procedures and keep costs down RapidHost runs a limited number of payment options.

By default all accounts will be settled by Credit/Debit Cards: RapidHost accepts MasterCard, Visa, Visa electron, Switch/Maestro or Solo. A valid card must be registered with RapidHost at all times to enable timely payment.

By agreement a BACS account can be implemented.

By agreement payment by standing order into RapidHost's bank account can be arranged but will involve an administration fee of £20 per transaction.

Cancellation And Refunds

RapidHost reserves the right to cancel the service at any time. In this event customers will be entitled to a pro rata refund based upon the remaining period of membership. If a customer contravenes RapidHost's terms of service a refund will not be issued in the event of a cancellation.

Customers may cancel their account at any time by giving 30 days notice of cancellation.

[back to top](#) **Email**

The following terms and conditions apply to RapidHost email services.

Size of Mailbox

Each mailbox has a storage quota. This is in place to protect your account and others from potentially large volumes of email sent to a single address that could materially affect the email system server. Additional storage can be purchased from RapidHost. It is the mailbox owner's responsibility to ensure that his/her mailbox does not reach its allocated level. RapidHost cannot be responsible for email lost due to full mailboxes.

Passwords

It is the mailbox owner's responsibility to keep his/her password confidential, and to change the password on a regular basis. RapidHost is not responsible for any data losses or security issues due to stolen passwords. RapidHost recommends that you use passwords that contain numbers and symbols in order to prevent unauthorised users from guessing commonly-used choices (i.e. "12345", "password", etc.).

Technical Support

Please see our [Online Support System](#) - with knowledge articles, how to articles and FAQ's.

Control Panels and Server Management

RapidHost provides web-based account and email server management via a control panel. This is designed to give you control over your account and the email server features. You can use your control panel to perform most of the routine account and server management tasks. Online help is available from RapidHost's [Online Support System](#).

Service Availability

RapidHost monitors the server as a whole but does not monitor individual mailboxes. The mail server uses SMTP, a "store-and-forward" email protocol, to deliver outbound messages. This protocol does not guarantee immediate delivery of email messages. By default, the mail server continues to attempt delivery. If there is no successful delivery attempt within eight hours, a delay notification will be emailed to the sender. If there is no successful delivery attempt within four days, the message will be returned to the sender.

Scheduled Maintenance

To guarantee optimal performance on the servers, it is necessary for RapidHost to perform routine maintenance. Such maintenance may require taking RapidHost mail servers off-line, typically performed during off-peak hours. RapidHost will give you advance notice of maintenance requiring the servers to be taken off-line whenever possible.

Security

RapidHost makes every reasonable effort to ensure mailbox security at all times. We do this through a combination of various network security policies, load balancing and redundant systems. We make every reasonable effort to ensure the integrity of data on our systems. On the rare occasions where there may be a problem with specific mailbox data, it is the mailbox owner's responsibility notify to us. We cannot guarantee to restore data and we accept no liability for the loss of any such data.

Mailbox and Public Folder Storage Capacity

Each mailbox also has its own storage limit. When the storage capacity is reached on an individual mailbox or folder, the mail servers shall stop sending or receiving messages. RapidHost is not responsible for service unavailability or data loss caused by any mailbox or folder exceeding its storage capacity. To prevent such occurrences, you can manage your mailbox within our [web based email system](#).

Anti-Virus Checking

RapidHost installs anti-virus software on its mail servers. This software is configured to check all messages coming in to and leaving the mail server. Messages sent between mailboxes on the server are not scanned. If a virus is detected, the message is deleted. No notification is sent to either recipient or sender of the message.

Anti-Spam Message Filtering

RapidHost runs anti-spam software on its mail servers. You can subscribe to this additional service.

Ownership of Data

All data created or stored by you within RapidHost's applications and servers are your property. RapidHost shall allow access to such data by only authorised RapidHost personnel. RapidHost makes no claim of ownership of any web server content, email content, or any other type of data contained within the account holder's server space or within applications on RapidHost' servers..

Customers are responsible for backing up their email before upgrading or removing mailboxes.

Use of Email Account

If RapidHost identifies a mailbox or domain that is causing problems; we will either remove the offending mailboxes or change their settings to resolve the issue. In extreme cases, we will disable email or suspend all services to the domain as appropriate.

For details of what is not allowed by RapidHost and our spam/ illicit material policies please see the [acceptable use policy](#) section of our terms & conditions.

Email Retrieval and Timescale

RapidHost's policy on maintaining stable data-transfer levels includes a deletion process for email that has not been downloaded locally within 90 days of receipt.

It is the mailbox owner's responsibility to ensure his/her received email is retrieved and saved locally where necessary to ensure that important correspondence is not lost.

RapidHost cannot be held responsible for lost items that have exceeded this 90 day limit.

[back to top](#) **Dedicated, Virtual Private and Co-located Servers**

The following terms and conditions apply to the Dedicated, Virtual Private and Co-located Server services:

Payment

If charges relating to bandwidth are outstanding for a period greater than 5 working days, your service may be suspended and furthermore, RapidHost may refer the account to a debt collection agency and inform credit reference agencies. This may seriously affect your ability to obtain credit in the future.

Contract Period

The hosting on these servers shall be for a minimum agreed period. You will be liable to a penalty of the outstanding period's payments in case you opt for termination of this contract before the expiry of the agreed period. For clarity if the period is 12 months payable monthly and you opt to terminate after making 10 monthly payments then you will still be liable for 2 monthly payments.

In the case of Virtual Private Servers hosted on a rolling contract (with payment periods such as monthly or annually), the contract will be automatically extended to the following payment period until notice to terminate is given by either party. A notice period of one month will apply, excepting in the first month of a monthly rolling contract where the contract can be terminated prior to the start of month two without requiring payment for month two.

100% Network Availability

At RapidHost we aim to deliver the highest possible levels of network up-time, and we offer a 100% availability guarantee as follows.

If our internet connectivity to your server(s) fails to meet 100% availability within the previous 30 days (excluding scheduled maintenance time), then you'll be eligible to claim a refund equivalent to one day's service fee for every hour of network down-time, up to a maximum of 15 days of service fee.

For the purpose of this guarantee, our network is defined as the central communications infrastructure excluding your server hardware and the software and services running on your server. The duration of network unavailability is calculated from when you formally notify us of a network failure (using our standard support procedures) to the time when network connectivity is restored, in that it responds correctly to an external ping.

Notification of network connectivity failure must take place at the time of the problem and not in retrospect.

This guarantee excludes network unavailability as the result of: i) scheduled maintenance ii) circumstances that are beyond RapidHost's reasonable control, such as malicious denial of service attacks, other types of network attack, civil disturbance, terrorist activity, government actions and iii) breaking our Terms Of Service or Acceptable Use Policy.

Server Ownership

Servers remain the property of RapidHost at all times, unless the server is a co-located server in which case the server remains the customer's property..

[back to top](#) **Remote Backup**

Provision of Rapid Backup service

The Service provides remote backup software and systems to enable the Customer to backup data. The remote backup system (Rapid Backup Centre) is located inside a secure data centre where all standard data centre facilities, including redundancy and backup power supply, 24-hour professional monitoring & surveillance and controlled access to the premises, are provided. RapidHost uses a primary backup server to provide online backup services to the Customer, that is further backed up by an additional backup system.

To use the service, the backup software, Rapid Backup Manager (RBM), must be installed on the Customer's computer. RapidHost will assist the Customer to install RBM onto all computers that contain data to be backed up and the Customer will set up RBM to backup the required data to the remote backup centre. The Customer can use the scheduling feature of RBM to schedule backup to run unattended. After RBM has been setup correctly, if the scheduling feature is enabled, RBM will backup the Customer's data to the Rapid Backup Centre automatically.

Rapid Backup Activity Reporting

For each completed backup, the Rapid Backup Centre will send a backup report, with a detailed listing of all files that have been backed up, to the Customer's designated email address. This report will show any unexpected errors encountered during the backup operation. The Customer will be able to take corrective action. If a scheduled backup has not been run as scheduled, a missed backup report will be sent to the Customer's email address.

Availability of the Services

The minimum acceptable level of uptime for the Service in any given month shall be 95% as determined by the following formula:

$$\text{Uptime Ratio} = (\text{Total Time} - \text{Lost Time}) / \text{Total Time} \times 100\%$$

where

Total Time = total number of hours within a month

Lost Time = total number of hours equipment at the RapidHost Data Centre is unavailable during a month.

If the uptime falls below 95%, and at the Customer request, the Customer's account will be credited on a pro rata basis for one day of the monthly fee for the service for each complete hour of Lost Time over and above that included in the acceptable level of uptime calculation. This is limited to the total amount paid by the customer in any month.

Scheduled Maintenance

Scheduled Maintenance shall mean any planned maintenance performed within the Rapid Backup Centre. Where possible, Customers will be given 7 days notice of Scheduled Maintenance.. Notice of Scheduled Maintenance will be provided to the Customer's designated point of contact by email. Unavailability caused by Scheduled Maintenance does not count towards to the "Lost Time" calculation for Service Availability.

Termination

The Customer may terminate this agreement without penalty by giving one month's notice in writing to RapidHost.

Cost and Charges

The Service costs involve an initial set up charge for each user and a recurring monthly charge which depends on the amount of data backed up onto the system.

Liability

RapidHost shall under no circumstances be liable to the Customer for any loss (whether direct or indirect) of revenue, loss of profits or any consequential loss whatsoever from the provision of this service.

[back to top](#) **Domain Names**

The following terms and conditions apply to the **domain registration** service:

Governing Bodies

RapidHost can provide Internet domain registration services for second-level domain names within the .com, .org, .net, .co.uk, .org.uk, .ltd.uk and .plc.uk top-level domains.

ICANN oversees the .com, .org and .net top-level domains. **Nominet** oversees the .co.uk, .org.uk, .ltd.uk and .plc.uk top-level domains.

Upon RapidHost's receipt of domain name registration information from you, RapidHost shall submit the information to the registry administrator for the appropriate top-level domain for approval and processing. The registry administrator then puts into effect the domain name registration. Network Solutions, Inc. currently acts as the registry administrator for the .com, .org, and .net top-level domains. Nominet UK acts as the registry administrator for the .co.uk, .org.uk, .ltd.uk and .plc.uk top-level domains.

Selection of a Domain Name

You represent that, to the best of your knowledge and belief, neither this registration of a domain name nor the manner in which it is directly or indirectly to be used infringes upon the legal rights of a third party and, further, that the domain name is not being registered for nor shall it at any time whatsoever be used for any unlawful purpose whatsoever.

Name Restrictions

Registrations in the .name top-level domain must constitute an individual's "Personal Name". For purposes of the .name restrictions (the "Restrictions"), a "Personal Name" is a person's legal name, or a name by which the person is commonly known. A "name by which a person is commonly known" includes, without limitation, a pseudonym used by an author or painter, or a stage name used by a singer or actor.

Fees

As consideration for RapidHost providing domain name registration services to you, you agree to pay RapidHost, prior to the approval of the desired domain name registration, the amounts set forth in RapidHost's price list, as amended from time to time, for the initial registration of the domain name and any subsequent renewals.

Your application will not be registered until RapidHost receives actual payment of the registration fee. If RapidHost does register a domain name prior to payment of the registration fee, RapidHost reserves the right to cancel that registration or restrict use of the domain name until payment has been received.

All fees must be prepaid and are non-refundable, in whole or in part, even if the domain name registration is suspended, cancelled or transferred prior to the end of the registration term.

In the event of a charge back by a credit card company or other payment provider authorised by RapidHost, the domain name registration shall be transferred to RapidHost as the paying entity for the registration. RapidHost may reinstate your

domain name registration at its sole discretion upon its receipt of the registration or renewal fee and its then current reinstatement fee. The reinstatement fee is currently UK £100 + VAT.

Payment must be made by credit card or other methods we indicate in registration application or renewal form. We will renew your name for you provided your credit card or other billing information is available and up to date. If your billing information is not accurate and you wish to renew your domain name registration, we will contact you to update this information and charge accordingly.

We reserve the right to make an administration charge of £10 plus VAT per domain where customers have attempted to register a domain name with multiple registrars.

Term

these Terms of Service shall remain in full force during the length of the term of your domain name registration(s) as selected, recorded, and paid for upon registration of the domain name. Should you choose to renew or otherwise lengthen the term of your domain name registration, then the term of this Registration Agreement shall be extended accordingly. Should the domain name be transferred to another Registrar, the terms and conditions of this contract shall cease.

To ensure your domains are not lost you will be notified in advance that your domain is about to expire and asked to confirm renewal. We make our best efforts to contact you prior to expiry. It is your responsibility to ensure valid contact and payment details are on your account at all times - failure can lead to suspension.

If RapidHost do not receive confirmation to renew we will not renew your domain name. However, it is your responsibility to check that your renewal has been successful within one month of the renewal date. For .uk domains you can do this using Nominet's WhoIs search, and for all other domains we recommend using the Tucows website domain lookup facility.

Domain registration and renewal fees are not refundable.

Dispute Policy

You agree to be bound by the RapidHost Domain Name Dispute Policy (the "Dispute Policy"), as amended from time to time, which is hereby incorporated and made a part of these Terms of Service by reference. The Dispute Policy can be found at the end of this document.

The Dispute Policy governs any dispute between you and any party other than us over the registration and use of the domain name. The specific disputes which are subject to the Dispute Policy are contained in the Dispute Policy. You agree that you will be subject to the provisions specified in the Dispute Policy in effect at the time the domain name registration is disputed by a third party.

You also agree that in the event a domain name dispute arises with any third party, you shall indemnify and hold RapidHost harmless pursuant to the terms and conditions contained in the Dispute Policy.

Changes and Registration Agreement and Dispute Policy

You acknowledge and recognise that the domain name system and the practice of registering and administering domain names are continuously evolving, and acknowledge and agree that RapidHost may modify these Terms of Service and the Dispute Policy as necessary from time to time to comply with any agreements by which RapidHost is or will be bound, and to adjust to changing business circumstances.

Your continued use of the registered domain name constitutes acceptance of these Terms of Service and amendments. [back to top](#) **Domain Name Dispute Policy**

Dispute Policy for domains ending in .com, .net or .org Approved by ICANN

1. Purpose.

This Uniform Domain Name Dispute Resolution Policy (the "Policy") has been adopted by the Internet Corporation for Assigned Names and Numbers ("ICANN"), is incorporated by reference into your Registration Agreement, and sets forth the terms and conditions in connection with a dispute between you and any party other than us (the registrar) over the registration and use of an Internet domain name registered by you. Proceedings under Paragraph 4 of this Policy will be conducted according to the Rules for Uniform Domain Name Dispute Resolution Policy (the "Rules of Procedure"), which are available at <http://www.icann.org/udrp/udrp-rules-24oct99.htm>, and the selected administrative-dispute-resolution service provider's supplemental rules.

2. Your Representations.

By applying to register a domain name, or by asking us to maintain or renew a domain name registration, you hereby represent and warrant to us that (a) the statements that you made in your Registration Agreement are complete and accurate; (b) to your knowledge, the registration of the domain name will not infringe upon or otherwise violate the rights of any third party; (c) you are not registering the domain name for an unlawful purpose; and (d) you will not knowingly use the domain name in violation of any applicable laws or regulations. It is your responsibility to determine whether your domain name registration infringes or violates someone else's rights.

3. Cancellations, Transfers, and Changes.

We will cancel, transfer or otherwise make changes to domain name registrations under the following circumstances:

- a. subject to the provisions of Paragraph 8, our receipt of written or appropriate electronic instructions from you or your authorised agent to take such action;
- b. our receipt of an order from a court or arbitral tribunal, in each case of competent jurisdiction, requiring such action; and/or
- c. our receipt of a decision of an Administrative Panel requiring such action in any administrative proceeding to which you were a party and which was conducted under this Policy or a later version of this Policy adopted by ICANN. (See Paragraph

4(i) and (k) below.) We may also cancel, transfer or otherwise make changes to a domain name registration in accordance with the terms of your Registration Agreement or other legal requirements.

4. Mandatory Administrative Proceeding.

This Paragraph sets forth the type of disputes for which you are required to submit to a mandatory administrative proceeding. These proceedings will be conducted before one of the administrative-dispute-resolution service providers listed at <http://www.icann.org/udrp/approved-providers.htm> (each, a "Provider").

a. Applicable Disputes. You are required to submit to a mandatory administrative proceeding in the event that a third party (a "complainant") asserts to the applicable Provider, in compliance with the Rules of Procedure, that (i) your domain name is identical or confusingly similar to a trademark or service mark in which the complainant has rights; and (ii) you have no rights or legitimate interests in respect of the domain name; and (iii) your domain name has been registered and is being used in bad faith. In the administrative proceeding, the complainant must prove that each of these three elements are present.

b. Evidence of Registration and Use in Bad Faith. For the purposes of Paragraph 4(a)(iii), the following circumstances, in particular but without limitation, if found by the Panel to be present, shall be evidence of the registration and use of a domain name in bad faith: (i) circumstances indicating that you have registered or you have acquired the domain name primarily for the purpose of selling, renting, or otherwise transferring the domain name registration to the complainant who is the owner of the trademark or service mark or to a competitor of that complainant, for valuable consideration in excess of your documented out-of-pocket costs directly related to the domain name; or (ii) you have registered the domain name in order to prevent the owner of the trademark or service mark from reflecting the mark in a corresponding domain name, provided that you have engaged in a pattern of such conduct; or (iii) you have registered the domain name primarily for the purpose of disrupting the business of a competitor; or (iv) by using the domain name, you have intentionally attempted to attract, for commercial gain, Internet users to your web site or other online location, by creating a likelihood of confusion with the complainant's mark as to the source, sponsorship, affiliation, or endorsement of your web site or location or of a product or service on your web site or location.

c. How to Demonstrate Your Rights to and Legitimate Interests in the Domain Name in Responding to a Complaint. When you receive a complaint, you should refer to Paragraph 5 of the Rules of Procedure in determining how your response should be prepared. Any of the following circumstances, in particular but without limitation, if found by the Panel to be proved based on its evaluation of all evidence presented, shall demonstrate your rights or legitimate interests to the domain name for purposes of Paragraph 4(a)(ii): (i) before any notice to you of the dispute, your use of, or demonstrable preparations to use, the domain name or a name corresponding to the domain name in connection with a bona fide offering of goods or services; or (ii) you (as an individual, business, or other organisation) have been commonly known by the domain name, even if you have acquired no trademark or service mark rights; or (iii) you are making a legitimate noncommercial or fair use of the domain name, without intent for commercial gain to misleadingly divert consumers or to tarnish the trademark or service mark at issue.

d. Selection of Provider. The complainant shall select the Provider from among those approved by ICANN by submitting the complaint to that Provider. The selected Provider will administer the proceeding, except in cases of consolidation as described in Paragraph 4(f).

e. Initiation of Proceeding and Process and Appointment of Administrative Panel. The Rules of Procedure state the process for initiating and conducting a proceeding and for appointing the panel that will decide the dispute (the "Administrative Panel").

f. Consolidation. In the event of multiple disputes between you and a complainant, either you or the complainant may petition to consolidate the disputes before a single Administrative Panel. This petition shall be made to the first Administrative Panel appointed to hear a pending dispute between the parties. This Administrative Panel may consolidate before it any or all such disputes in its sole discretion, provided that the disputes being consolidated are governed by this Policy or a later version of this Policy adopted by ICANN.

g. Fees. All fees charged by a Provider in connection with any dispute before an Administrative Panel pursuant to this Policy shall be paid by the complainant, except in cases where you elect to expand the Administrative Panel from one to three panelists as provided in Paragraph 5(b)(iv) of the Rules of Procedure, in which case all fees will be split evenly by you and the complainant.

h. Our Involvement in Administrative Proceedings. We do not, and will not, participate in the administration or conduct of any proceeding before an Administrative Panel. In addition, we will not be liable as a result of any decisions rendered by the Administrative Panel.

i. Remedies. The remedies available to a complainant pursuant to any proceeding before an Administrative Panel shall be limited to requiring the cancellation of your domain name or the transfer of your domain name registration to the complainant.

j. Notification and Publication. The Provider shall notify us of any decision made by an Administrative Panel with respect to a domain name you have registered with us. All decisions under this Policy will be published in full over the Internet, except when an Administrative Panel determines in an exceptional case to redact portions of its decision.

k. Availability of Court Proceedings. The mandatory administrative proceeding requirements set forth in Paragraph 4 shall not prevent either you or the complainant from submitting the dispute to a court of competent jurisdiction for independent resolution before such mandatory administrative proceeding is commenced or after such proceeding is concluded. If an Administrative Panel decides that your domain name registration should be canceled or transferred, we will wait ten (10) business days (as observed in the location of our principal office) after we are informed by the applicable Provider of the Administrative Panel's decision before implementing that decision. We will then implement the decision unless we have received from you during that ten (10) business day period official documentation (such as a copy of a complaint, file-stamped by the clerk of the court) that you have commenced a lawsuit against the complainant in a jurisdiction to which the complainant has submitted under Paragraph 3(b)(xiii) of the Rules of Procedure. (In general, that jurisdiction is either the location of our principal office or of your address as shown in our Whois database. See Paragraphs 1 and 3(b)(xiii) of the Rules of Procedure for details.) If we receive such documentation within the ten (10) business day period, we will not implement the Administrative Panel's decision, and we will take no further action, until we receive (i) evidence satisfactory to

us of a resolution between the parties; (ii) evidence satisfactory to us that your lawsuit has been dismissed or withdrawn; or (iii) a copy of an order from such court dismissing your lawsuit or ordering that you do not have the right to continue to use your domain name.

5. All Other Disputes and Litigation.

All other disputes between you and any party other than us regarding your domain name registration that are not brought pursuant to the mandatory administrative proceeding provisions of Paragraph 4 shall be resolved between you and such other party through any court, arbitration or other proceeding that may be available.

6. Our Involvement in Disputes.

We will not participate in any way in any dispute between you and any party other than us regarding the registration and use of your domain name. You shall not name us as a party or otherwise include us in any such proceeding. In the event that we are named as a party in any such proceeding, we reserve the right to raise any and all defenses deemed appropriate, and to take any other action necessary to defend ourselves.

7. Maintaining the Status Quo.

We will not cancel, transfer, activate, deactivate, or otherwise change the status of any domain name registration under this Policy except as provided in Paragraph 3 above.

8. Transfers During a Dispute.

a. Transfers of a Domain Name to a New Holder. You may not transfer your domain name registration to another holder (i) during a pending administrative proceeding brought pursuant to Paragraph 4 or for a period of fifteen (15) business days (as observed in the location of our principal place of business) after such proceeding is concluded; or (ii) during a pending court proceeding or arbitration commenced regarding your domain name unless the party to whom the domain name registration is being transferred agrees, in writing, to be bound by the decision of the court or arbitrator. We reserve the right to cancel any transfer of a domain name registration to another holder that is made in violation of this subparagraph.

b. Changing Registrars. You may not transfer your domain name registration to another registrar during a pending administrative proceeding brought pursuant to Paragraph 4 or for a period of fifteen (15) business days (as observed in the location of our principal place of business) after such proceeding is concluded. You may transfer administration of your domain name registration to another registrar during a pending court action or arbitration, provided that the domain name you have registered with us shall continue to be subject to the proceedings commenced against you in accordance with the terms of this Policy. In the event that you transfer a domain name registration to us during the pendency of a court action or arbitration, such dispute shall remain subject to the domain name dispute policy of the registrar from which the domain name registration was transferred.

9. Policy Modifications.

We reserve the right to modify this Policy at any time with the permission of ICANN. We will post our revised Policy here at least thirty (30) calendar days before it becomes effective. Unless this Policy has already been invoked by the submission of a complaint to a Provider, in which event the version of the Policy in effect at the time it was invoked will apply to you until the dispute is over, all such changes will be binding upon you with respect to any domain name registration dispute, whether the dispute arose before, on or after the effective date of our change. In the event that you object to a change in this Policy, your sole remedy is to cancel your domain name registration with us, provided that you will not be entitled to a refund of any fees you paid to us. The revised Policy will apply to you until you cancel your domain name registration.

Guidelines

This policy is subject to change, so please check regularly for updates. This policy is in addition to RapidHost Terms of Service.

1) Web hosting

1.1) RapidHost reserves the right to suspend or cancel a customer's access to any or all services provided by RapidHost, where RapidHost decides that the account has been inappropriately used. RapidHost reserves the right to refuse service and/or access to its servers to anyone.

1.2) RapidHost may offer unlimited web space and bandwidth with some account types. By this, we mean unlimited space for legitimate web site content and bandwidth for visitors to view it. All files on a domain must be part of the active website and linked to the site. Sites should not contain any backups, downloads, or other non-web based content. We will treat all password protected archive (e.g. zip and rar) files as unacceptable. Multimedia content such as audio and video is acceptable provided it is streamed to the user; links to HTTP download of this content is not acceptable. RapidHost can offer a streaming media service for this type of content.

1.3) Scripts on the site must be designed to produce web-based content, and not to use the server as an application server. Using the server to generate large volumes of email from a database is an example of activity that is not allowed. Scripts should not attempt to manipulate the timeouts on servers. These are set at the present values to ensure the reliability of the server.. Sites that reset these do so because they are resource intensive, and adversely affect server performance and are therefore not allowed.

1.4) RapidHost will disable any domain that fails to adhere to the following criteria as soon as we are made aware, in line with current working practices:

1.4.1) The primary purpose of any site must be to provide web-based content to viewers. Files on the site must be linked to the web site.

1.4.2) The primary purpose of any script must be to produce a web page. Scripts that send a single email based upon user entered information, or update a database are acceptable. Scripts that send bulk email or perform processor intensive database processes are not allowed. All outgoing mail is monitored and filtered and must be sent to or from a RapidHost-hosted domain.

1.4.3) Sites must not contain Warez, copyright or other illegal material. The onus is on the customer to prove that they own the rights to publish material, not for RapidHost to prove that they do not.

1.4.4) Sites must not contain adult material, pornographic or other lewd material. Adult Material includes all pornography, erotic images, or otherwise lewd or obscene content. The designation of "adult material" is left entirely to the discretion of RapidHost.

1.4.5) Sites must not use excessive amounts of server resources. These include bandwidth, processor utilisation and / or disk space. Please see the 'High Resource Use Policy' in the General Terms and Conditions.

1.4.6) Sites must not contain scripts that attempt to access privileged server resources, or other sites on the same server.
